But for something you can complete in under an hour, it isn't worth the value A nice designed adventure puzzle, indie game.. Can't wait for the rest! A short and sweet puzzle adventure game I enjoyed the unique looking visuals combined with cute music and confounding puzzles.

If you like similar games it won't disappoint, but since it's very (very, very) short I'd only buy it again if it was on sale.. I'll admit that the graphics and getting the game to run are difficult, and that's something I admire.
